

ISTITUTO MARYMOUNT ROMA

SCUOLA PARITARIA BILINGUE - INFANZIA - PRIMARIA - SECONDARIA I GRADO - LICEO CLASSICO E SCIENTIFICO

1930-2020

An Educational mission of 90 years.

"Celebrating the past, committed to the future"

A school is a crossroads of people meeting, of their emotions, joys and sorrows. Stories that touch each other, that merge, lives that intertwine, lose sight of each other and find each other again.

Thanks to the Religious of the Sacred Heart of Mary, for the past ninety years, many thousands of boys and girls, men and women have met and have grown up on the campus of our school. They had seen the beauty of this unique setting, they have acquired an open-mindset and vision of the world, they have shared wonderful experiences, small and big problems and have faced together personal and collective tragedies.

Today, our everyday stories continue to be interlaced, like the threads of a weaving, which come from far away, uninterrupted over time.

As a community, together, step by step, students, teachers, parents and staff, we are here to follow and nurture an always innovative and rigorous mission of education, a way of being and existing amidst the intemperances of life.

In this difficult time for our country and for the whole world, Marymount is still here, ready to educate and raise a new generation of boys and girls, with a vision of internationality, and of nurturing unity in diversity, social justice and solidarity, ***"so that all may have life"***.

Head of School

Prof. Andrea Forzoni
